Dear Customer,
Here is our current Order Form. We accept orders by phone, mail, email, fax or online via our webstore. Please note these other great offerings from Excel Math:

Projectable Lessons in electronic format

Display concepts from the Lesson Sheets, with space for students to write. You can also show the work and the answers from the Teacher Edition. Lessons may be printed for document cameras and transparencies.

Note: Excel Math Projectable Lessons are not interactive software.

Distributed on CD-R discs; one for each grade level from 1 to 6.

Disc has 155 lessons, Teacher Edition for on-screen reference (*not printable*) and manipulatives. The CD files may be copied to a network hard drive and shared between classes of the same grade level at a single school site.

\$49 per grade level or \$64 Combo with a print Teacher Edition, plus shipping

Summer School Edition 6 week program

Review concepts learned previously or prepare for the upcoming term.

Help students who are behind to come up to grade level.

Keep students active and progressing in math during the summer break.

Can be used by teachers in summer school programs, parents working with children, or students working independently.

Contains 30 lessons and 6 tests.

\$6.25 per student set or \$13.50 for a Teacher Edition, plus shipping

Professional Development at your school site

Excel Math In-Service includes instructional strategies (best practices) for effective direct instruction, tips to take full advantage of the components of Excel Math, and how to use the regular assessment tools for maximum instruction. If you use Excel Math as a supplement, we cover how to blend Excel Math with an adopted core curriculum. This presentation takes less than 2 hours.

Please call or email Bob@excelmath.com for details and availability.

\$ Minimal Charge based on travel expenses.
